**R 395.3 Economic circumstances of individual.**

Rule 3. (1) Consideration shall be given to the financial responsibilities of each person with a disability furnished a cost service. Each person with a disability or his or her family shall be encouraged to provide for the costs of the individual program insofar as possible. All direct cost services, with the exception of diagnostic examinations and specialized consultation services, shall be given on the basis of the degree to which the individual may participate financially.

(2) Maintenance may be provided for additional costs, beyond normal living expenses, incurred while participating in an assessment to determine eligibility and vocational rehabilitation needs or while receiving services under an individualized plan for employment. When maintenance costs are a part of a student's cost of attendance in post-secondary training, they shall be subject to the economic needs test referred to in R 395.31. Before the person with a disability is granted maintenance, he or she shall secure necessary aid from the family group upon which the individual is dependent and to use for living costs any income from sources such as pensions, insurance benefits, and worker's compensation and worker's compensation settlements.

**R 395.31 Training.**

Rule 31. (1) The agency shall impose an economic needs test for the student's cost of attendance of training at a post-secondary educational institution. The economic needs test utilized shall be the federally established needs test using the Free Application for Federal Student Aid (FAFSA) or its equivalent, as required by the post-secondary institution, to determine student eligibility for state and federal financial aid.

(2) The agency may not provide financial assistance for any item covered in the cost of training attendance if the individual, or individual's family as applicable, fails to make maximum effort to apply for, or refuses to accept, federal, state, institutional, and other grants, need-based scholarships, or tuition waivers for which they may be eligible.

(3) The agency shall not replace the expected family contribution, as determined by the post-secondary institution's financial aid officer using the federal Student Aid Report, in contributing toward the individual's cost of attendance at a post-secondary institution. However, monetary benefits received by an individual under Titles II and XVI of the Social Security Act are excluded from the expected family contribution to postsecondary attendance.

(4) The agency shall not replace insurance benefits received, wholly or in part, as a settlement of liability for vocational rehabilitation services, in contributing toward the individual's cost of attendance at a post-secondary institution.

(5) Maximum financial support that may be provided by the agency toward an individual's cost of college or vocational training during the academic year shall be \$3,000.00 and \$1,000.00 for the summer semester. An exception to the maximum may be considered by the agency when other forms of student aid are excluded due to disability-related factors. The agency shall periodically adjust the maximum financial support figures in accordance with increases in the cost of living.

(6) Agency clients attending Michigan Career and Technical Institute are exempt from means testing and financial aid limitations for the cost of attendance.

(7) Costs for training on the job shall be computed in terms of the actual costs of training.
